Weather Forecast and Warning

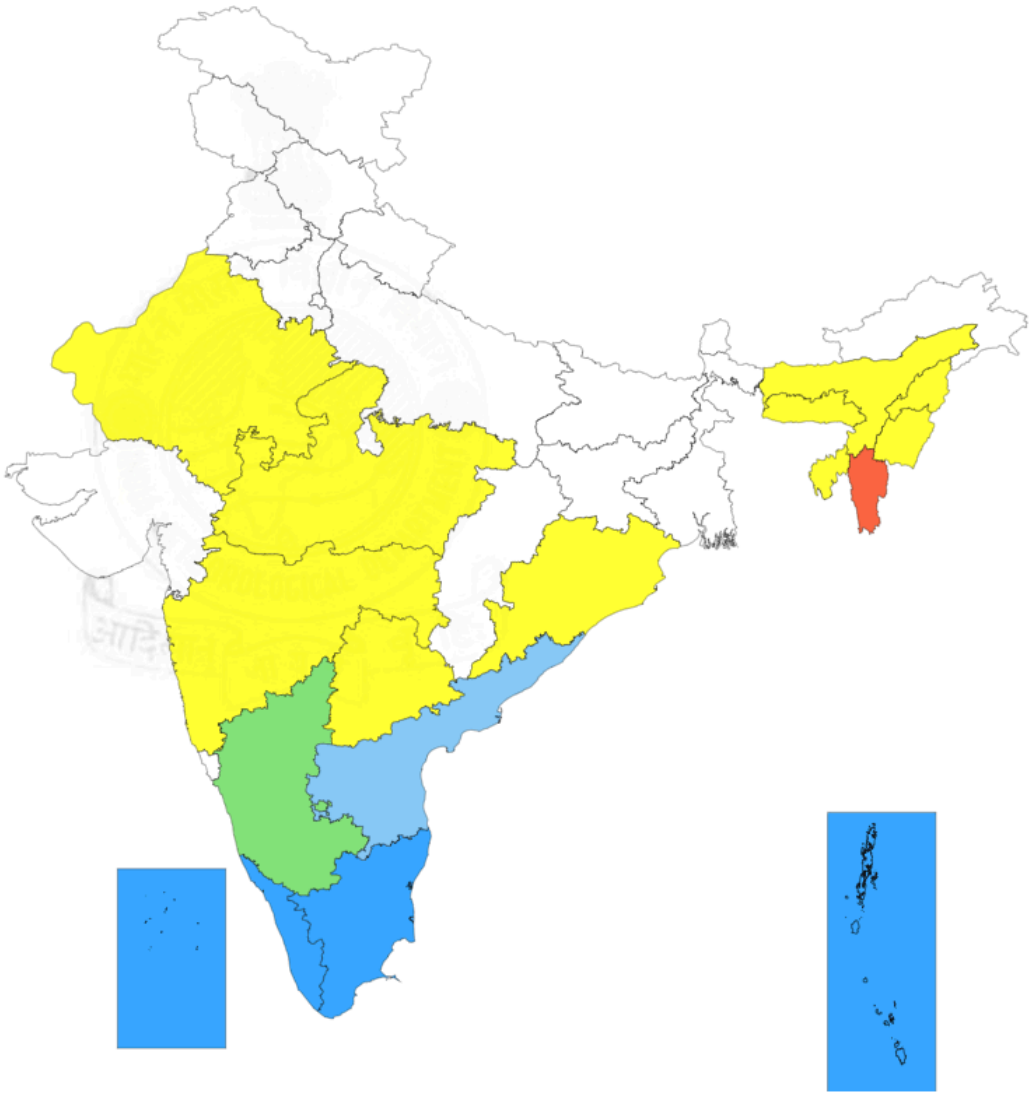

- **West Bengal :** Cyclonic Storm Arnab: Rainfall and Wind Warning : Cyclonic Storm Arnab is expected to bring rainfall to Gangetic West Bengal on 28–29 October, with scattered rainfall also possible on 27 October and from 30 October to 1 November. Heavy rainfall is likely on 28–29 October. Gusty winds of 40–50 kmph, with gusts up to 60 kmph, are expected on 28–29 October, while winds of 30–40 kmph, gusting to 50 kmph, may occur on 27 and 30 October. Squally weather with winds of 40–50 kmph, gusting to 60 kmph, is likely along and off the West Bengal coast from the evening of 27 October to the evening of 28 October. Sea conditions are expected to remain rough to very rough during this period.
- **Uttar Pradesh :** Extremely Heavy Rainfall Warning for Eastern Uttar Pradesh : Eastern Uttar Pradesh is likely to receive widespread rainfall on 29–30 October under the influence of the approaching weather systems. Extremely heavy rainfall is forecast at isolated places on 29 October, while very heavy rainfall is likely on 30 October. Heavy rainfall is also expected at isolated places on 31 October. Thunderstorms with lightning and gusty winds of 40–50 kmph, gusting to 60 kmph, may occur on 31 October. Scattered rainfall is also likely in eastern Uttar Pradesh on 28 October and from 31 October to 1 November, while western Uttar Pradesh may receive scattered rainfall on 29–31 October, accompanied by gusty winds of 30–40 kmph, gusting to 50 kmph, on 29–30 October.
- **Punjab :** Rainfall and Gusty Wind Forecast : Punjab is likely to experience scattered rainfall between 28 and 31 October due to an approaching Western Disturbance. Gusty winds of 30–40 kmph, with gusts reaching 50 kmph, are expected at isolated places on 29–30 October. Weather conditions may change during this period as the Western Disturbance affects northwestern India.
- **Andhra Pradesh :** Cyclonic Storm Arnab: Extremely Heavy Rainfall and Severe Winds : Cyclonic Storm Arnab is moving west-northwestwards over the Bay of Bengal and is expected to intensify into a very severe cyclonic storm on 27 October. It is forecast to cross the Andhra Pradesh and Yanam coast between Bapatla and Visakhapatnam, close to Yanam, by the forenoon of 28 October. Maximum sustained wind speeds may reach 115–125 kmph, with gusts up to 140 kmph. Widespread rainfall is expected over Coastal Andhra Pradesh and Yanam from 27–29 October, with isolated extremely heavy rainfall likely on 27–28 October. Thunderstorms, lightning and gusty winds reaching 80–90 kmph are also forecast during this period.
- **Gujarat :** No specific rainfall or wind warning for Gujarat is included in the provided bulletin.
- **Maharashtra :** Rainfall and Thunderstorm Forecast : Scattered rainfall is likely over Konkan and Goa, Madhya Maharashtra and Marathwada from 28–30 October. Thunderstorms, lightning and gusty winds of 40–50 kmph, with gusts up to 60 kmph, are expected at isolated places over Madhya Maharashtra during 28–30 October. Similar conditions are likely over Konkan and Goa on 29 October. Vidarbha is expected to receive widespread rainfall on 28–29 October, with isolated very heavy rainfall on 28 October and heavy rainfall on 29 October. Thunderstorms with lightning and gusty winds of 40–50 kmph, gusting to 60 kmph, are also likely over Vidarbha on 28–29 October.
- **Telangana :** Extremely Heavy Rainfall and Thunderstorm Warning : Telangana is likely to receive widespread rainfall on 28 October, with scattered rainfall also expected on 27 October and during 29 October–1 November. Isolated extremely heavy rainfall is forecast on 28 October, while heavy rainfall is likely on 27 and 29 October. Thunderstorms and lightning, accompanied by gusty winds of 30–40 kmph and gusts up to 50 kmph, may occur on 27 and 29–30 October. A thundersquall with winds of 50–60 kmph, gusting to 70 kmph, is also likely on 28 October. Strong winds are expected in parts of northeastern Telangana, including Khammam, Bhadradri Kothagudem, Mulugu and Mahabubabad, from the early hours of 28 October.
- **Madhya Pradesh and Maharashtra :** Heavy to Extremely Heavy Rainfall Forecast : Eastern Madhya Pradesh is likely to experience widespread rainfall from 28–30 October, with isolated heavy rainfall on 28 and 30 October and very heavy rainfall on 29 October. Thunderstorms, lightning and gusty winds of 40–50 kmph, with gusts up to 60 kmph, are expected at isolated places during 28–30 October. Western Madhya Pradesh may receive scattered rainfall from 28–31 October, with gusty winds of 30–40 kmph, gusting to 50 kmph. In Maharashtra, Vidarbha is likely to receive widespread rainfall on 28–29 October, including isolated very heavy rainfall on 28 October. Chhattisgarh, adjoining Madhya Pradesh, is also expected to receive extremely heavy rainfall on 28–29 October, with thunderstorms and squalls.
- **Karnataka :** Rainfall and Strong Wind Forecast : South Interior Karnataka is likely to receive scattered rainfall from 28 October to 1 November, while North Interior Karnataka may experience scattered rainfall during 29 October–1 November. Gusty winds of 30–40 kmph, with gusts up to 50 kmph, are expected over South Interior Karnataka on 28 October and North Interior Karnataka on 29 October. Strong surface winds are likely over South Interior Karnataka on 27–28 October and North Interior Karnataka on 28–29 October.
- **Bihar :** Heavy to Very Heavy Rainfall and Thunderstorm Warning : Bihar is likely to experience widespread rainfall from 29–31 October, with isolated rainfall also possible on 28 October and 1 November. Very heavy rainfall is forecast at isolated places on 29–30 October, while heavy rainfall is likely on 31 October. Thunderstorms, lightning and gusty winds of 40–50 kmph, with gusts up to 60 kmph, are expected during 28–31 October. Gusty winds of 30–40 kmph, gusting to 50 kmph, may also occur on 1 November.
