Weather Forecast and Warning

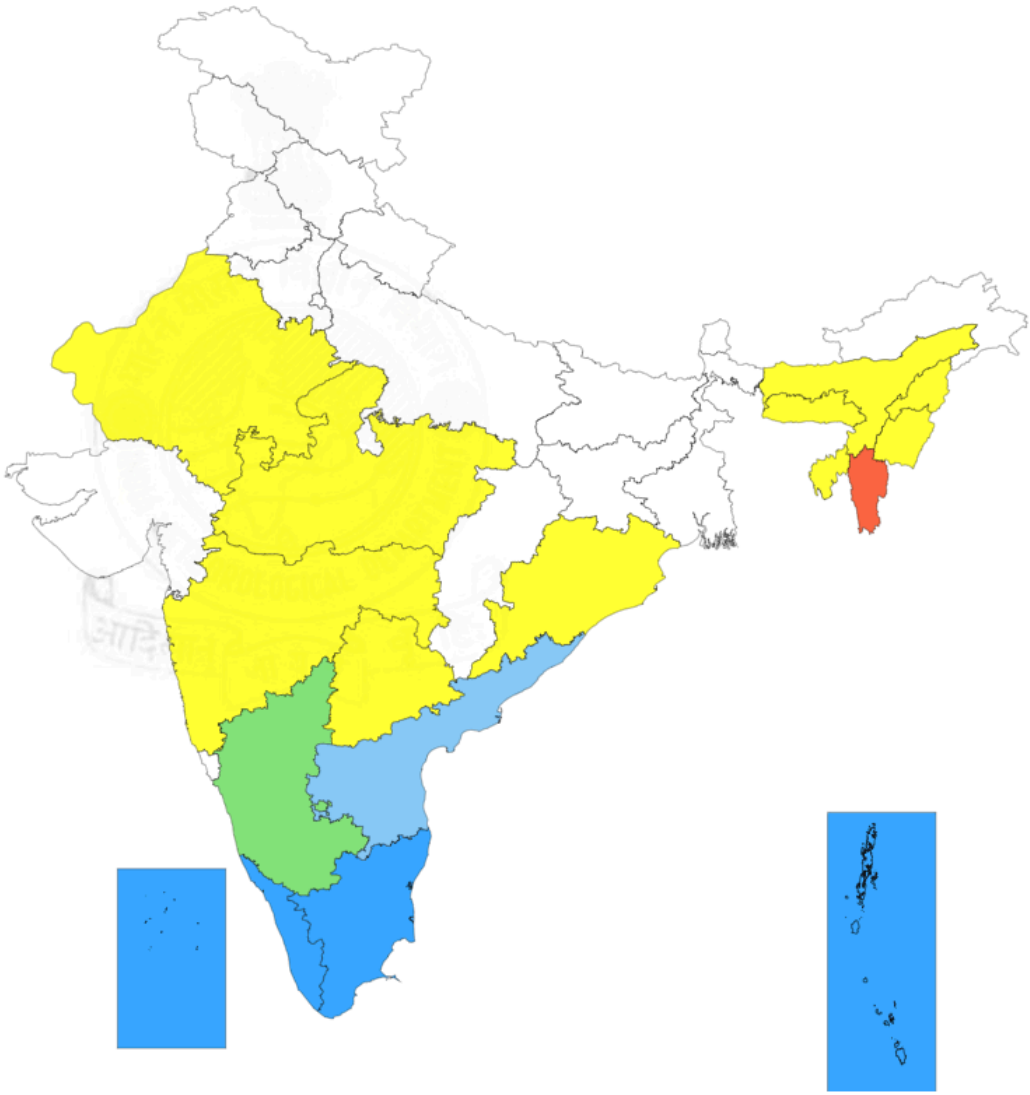

- **West Bengal: Rain and Gusty Winds Expected Along Coastal Areas :** Gangetic West Bengal is likely to receive fairly widespread rainfall on October 28–29, while scattered showers may occur on October 27 and from October 30 to November 2. Heavy rainfall is expected at isolated places on October 28–29. Thunderstorms with lightning and gusty winds of 40–50 kmph, reaching 60 kmph, are likely on October 28–29. Squally winds of 40–50 kmph, gusting to 60 kmph, may affect the West Bengal coast from the afternoon of October 27 until noon on October 28. Sea conditions are expected to remain rough to very rough along the coast during this period. Fishermen have been advised not to venture into the northwest Bay of Bengal and along or off the West Bengal coast from October 27–29.
- **Uttar Pradesh: Heavy Rainfall Likely in Eastern Districts :** Uttar Pradesh is likely to receive fairly widespread to widespread rainfall on October 29–30, with isolated showers also expected on October 28 and from October 31 to November 1. Very heavy rainfall is likely at isolated places on October 29–30. Thunderstorms with lightning and gusty winds of 40–50 kmph, reaching 60 kmph, are expected in eastern districts on October 29–30, while winds of 30–40 kmph, gusting to 50 kmph, may occur on October 28. Western Uttar Pradesh may experience scattered rainfall and gusty winds on October 29–30. Residents should remain alert to changing weather conditions.
- **Punjab: Rain, Thunderstorms and Possible Hailstorms :** Punjab is likely to receive scattered rainfall from October 29 to November 1. Thunderstorms accompanied by lightning and gusty winds of 40–50 kmph, reaching 60 kmph, are expected between October 29 and 31. Isolated hailstorm activity is also likely on October 29–30, which may affect standing crops and outdoor activities. Farmers and residents should monitor local weather warnings and take precautions against sudden thunderstorms and strong winds.
- **Andhra Pradesh: Extremely Heavy Rainfall and Cyclone Warning :** Very Severe Cyclonic Storm Arnab is moving towards the Andhra Pradesh coast and is expected to cross between Bapatla and Visakhapatnam, close to Yanam, by the forenoon of October 28. Extremely heavy rainfall is likely at isolated places in Coastal Andhra Pradesh and Yanam on October 27–28, while fairly widespread to widespread rainfall is expected from October 27–29. Winds are expected to strengthen significantly, reaching 125–135 kmph with gusts up to 150 kmph during landfall. A storm surge of 1–2 metres above the astronomical tide may inundate low-lying coastal areas, particularly around Kakinada and Yanam. Sea conditions are expected to become phenomenal from the night of October 27 until landfall. Residents in vulnerable coastal areas should follow official warnings, and fishermen are advised not to venture into the sea from October 27–29.
- **Maharashtra: Rain and Thunderstorms Expected in Several Regions :** Konkan and Goa, along with Marathwada, are likely to receive isolated to scattered rainfall from October 28–30. Madhya Maharashtra may experience scattered showers from October 28–31. Thunderstorms accompanied by lightning and gusty winds of 40–50 kmph, reaching 60 kmph, are expected over Konkan and Goa on October 29 and over Madhya Maharashtra and Marathwada from October 28–30. Vidarbha is likely to receive widespread rainfall on October 28–29, with isolated heavy rainfall on October 29 and very heavy rainfall possible on October 28.
- **Telangana: Heavy Rainfall and Strong Winds Expected :** Telangana is likely to receive fairly widespread to widespread rainfall on October 28, with isolated to scattered showers also expected on October 27 and October 29–30. Isolated very heavy rainfall is likely on October 28. Thunderstorms accompanied by lightning and gusty winds are expected on October 27 and 29, while a thundersquall with wind speeds of 50–60 kmph, gusting to 70 kmph, is forecast for October 28. In northeastern Telangana, including Khammam, Bhadradri Kothagudem, Mulugu and Mahabubabad, winds may strengthen to 60–70 kmph, with gusts up to 80 kmph, from the early hours of October 28 until that night. Residents should remain alert to heavy rainfall, strong winds and possible local disruptions.
- **Madhya Pradesh: Heavy Rainfall and Strong Winds Forecast :** East Madhya Pradesh is likely to receive fairly widespread to widespread rainfall from October 28–30, while West Madhya Pradesh may experience scattered showers from October 28 to November 2. Isolated heavy rainfall is expected in East Madhya Pradesh on October 28 and 30, with very heavy rainfall possible on October 29. Thunderstorms with lightning and gusty winds of 40–50 kmph, reaching 60 kmph, are likely over East Madhya Pradesh from October 28–30 and over West Madhya Pradesh from October 29–31. Residents and farmers should monitor local forecasts for possible weather-related disruptions.
- **Karnataka: Scattered Showers and Gusty Winds in Interior Districts :** North Interior Karnataka and South Interior Karnataka are likely to experience isolated to scattered rainfall on October 29 and from November 1–2. Gusty winds of 30–40 kmph, reaching 50 kmph, are expected in both regions on October 29. Strong surface winds are also likely on October 28–29. Residents and farmers should remain cautious during periods of strong winds and changing weather.
- **Bihar: Rainfall and Thunderstorms Expected Through the Weekend :** Bihar is likely to receive fairly widespread to widespread rainfall from October 29–31, with isolated to scattered showers also expected on October 27–28 and November 1–2. Heavy rainfall is likely at isolated places on October 29–30. Thunderstorms accompanied by lightning and gusty winds of 40–50 kmph, reaching 60 kmph, are expected from October 28 to November 1. Residents should remain alert to local weather warnings, particularly during periods of thunderstorms and heavy rainfall.
