Market Update

- **Chilli market showed upward trend in Guntur Market and higher Arrivals till 24th Oct:** Guntur market showed upward trend from 23rd Oct to 16th Oct. The Chilli Bedki, LCA 334 - loose, No. 273, No.5/ fatki, Sannam and Teja varieties were quoted at 2,75,000, 2,90,000, 2,70,000, 2,65,000, 2,90,000, and 2,28,000 INR/tonne, this variety LCA 334 - loose, No. 273, No.5/ fatki, Sannam and Teja varieties up by 5,000, 5,000, 10,000, 5,000, and 8,000 INR respectively. In last week (till 24th Oct), cumulative arrivals during the current market year (Mar to Feb) reached 7,62,939 tonnes, representing a 30.2% incline compared to the same period last year.
- **Market Outlook Remains Bullish as Prices Trade Above the Trend Reversal Point:** Turmeric prices closed at 228,000 INR/tonne, up 4% week-on-week. Prices are trading above the trend reversal point of 225,333 INR/tonne, indicating a bullish near-term outlook. Immediate resistance is placed at 230,667 INR/tonne, followed by 233,333 INR/tonne. On the downside, immediate support is seen at 222,667 INR/tonne, followed by stronger support at 217,333 INR/tonne. The near-term outlook remains bullish as long as prices sustain above the trend reversal point. A sustained move higher could strengthen bullish momentum, while a break below 225,333 INR/tonne may weaken the bullish trend.
- **Red Chilli Market Remains Firm due to Limited Supplies:** The red chilli market remained firm, supported by limited availability of old-crop stocks, lower-than-expected arrivals in Madhya Pradesh, and festival-led procurement demand. However, sluggish export activity, particularly weak bulk buying from China, along with subdued domestic demand, continued to limit further price gains.
- **Red Chilli Sowing Delayed in Andhra Pradesh and Telangana:** Red chilli sowing in Andhra Pradesh and Telangana has been delayed by nearly a month due to inadequate and uneven rainfall. The delay is expected to push back harvesting and fresh-crop arrivals, potentially extending the period of tight market supplies. Weather-related crop stress could also affect yields if moisture conditions remain unfavourable. With carry-over stocks limited and export demand expected to strengthen, red chilli prices may remain firm in the coming months.
- **India Makes Aflatoxin Testing Mandatory for Chilli Exports to Sri Lanka:** India's Spices Board has made pre-shipment aflatoxin testing and clearance certification mandatory for chilli exports to Sri Lanka, effective October 19, 2026. The rules cover whole chillies and chilli-based products, including curry powders and masalas under HS Code 0904. Export consignments must carry a Cleared Test Report, with maximum permissible limits of 5.0 µg/kg for aflatoxin B1 and 10.0 µg/kg for total aflatoxins.

Price Influencing Factor (Chilli)

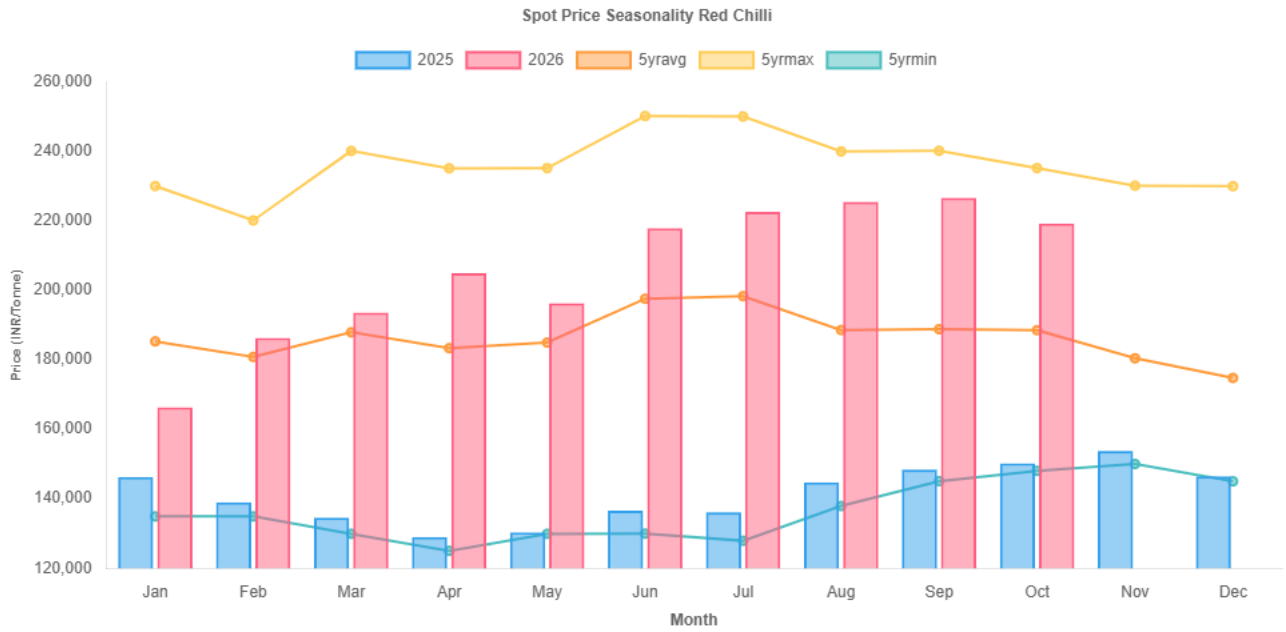

S.No.	Factors	Current Status	Expected Impact on Prices
1	Area('000.ha)	Lower (785.7 vs 789.2) (Rabi 2026 vs 2025)	Bullish
2	Yield (tonnes/Ha.)	Lower (3.1 vs 3.4) (Rabi 2026 vs 2025)	Bullish
