Key Updates

- **India Pulses Sowing Reaches 0.15 Lakh Hectares as Rabi Season Begins:** According to the Ministry of Agriculture and Farmers Welfare's latest Rabi sowing update dated 16 October 2026, total pulses acreage reached 0.15 lakh hectares, compared with 0.10 lakh hectares during the corresponding period last year, an increase of 0.05 lakh hectares (50%). Gram (Chana) sowing stood at 0.06 lakh hectares against zero reported last year, with sowing commencing in Nagaland and Rajasthan. Lentil sowing had begun in Mizoram and Nagaland, while fieldpea and urdbean sowing was also reported in a few states. Kulthi, Moongbean and Lathyrus sowing had not yet commenced. Overall, Rabi pulses sowing remains at an early stage, with acreage likely to change as sowing progresses across major producing states.
- **Maharashtra Urges Farmers to Prioritise Drinking Water Amid Drought, Delays Rabi Sowing:** The state government has urged farmers to prioritise drinking water for people and livestock before using available reserves for Rabi cultivation, amid deficient rainfall and drought conditions. Addressing a gathering in Nashik on 11 October, the Chief Minister appealed to farmers to conserve water until July 2027 and use only surplus supplies for crop sowing. Drought has been declared in 265 talukas, while concerns over fodder shortages have prompted assurances of government support for livestock. The state also plans to strengthen water conservation through desilting reservoirs, repairing check dams, restoring wells and reviving percolation tanks. Limited irrigation availability could delay Rabi sowing and affect crop acreage, particularly for water-dependent crops, while increasing uncertainty over pulses and oilseed production. (Source: The Times of India)
- **India Pulse Imports of 66,496 Tonnes of Canadian Masoor and Matar Scheduled to Arrive at Mundra:** A vessel, M.V. Sakizaya Unicorn, carrying 66,496 tonnes of pulses from Canada, is scheduled to arrive at Mundra Port on 21 October 2026, according to shipping agency reports. The consignment comprises 58,363.944 tonnes of Masoor (lentils) and 8,132.056 tonnes of Matar (yellow peas). Masoor accounts for approximately 88% of the shipment, while Matar makes up the remaining 12%. The arrival will add to domestic port inventories and could improve near-term availability of imported pulses. The impact on prices will depend on unloading, distribution, existing stocks and demand from millers.
- **Chana Tender; NCCF Approves Karnataka Bid at ₹7,800/Quintal; Other States Rejected:** NCCF's PSS Chana Rabi-2026 auction on 20 October 2026 saw the bid for Karnataka approved at ₹7,800/quintal, while bids from Maharashtra, Telangana, Andhra Pradesh, Madhya Pradesh, Chhattisgarh, Uttar Pradesh and Gujarat were rejected. In a separate auction, NCCF approved a Tur Kharif-2025 bid in Telangana at ₹9,722/quintal. The Chana bid rejection across seven states indicates that the submitted offers did not secure approval, while the Karnataka rate provides a reference for government-stock transactions. The approved Tur bid offers a benchmark for procurement-stock sales in Telangana.

Pulses Sowing Update

Kharif pulses sowing increased 2.1% YoY to 12,239 thousand hectares. Tur acreage increased 3.2% to 4,793 thousand hectares and Moong sowing declined 3.4% to 3,373 thousand hectares, while Urad acreage increased 12.6% to 2,657 thousand hectares. The above sowing data is based on the Ministry of Agriculture & Farmers Welfare's latest Kharif Sowing Progress Report released on 2 October 2026.

Commodity	Current Sowing	Previous Year Sowing	YoY Change (%)	Normal Sowing	Deviation from Normal (%)
Tur	4793	4643	3.2%	4432	8.1%
