Domestic News

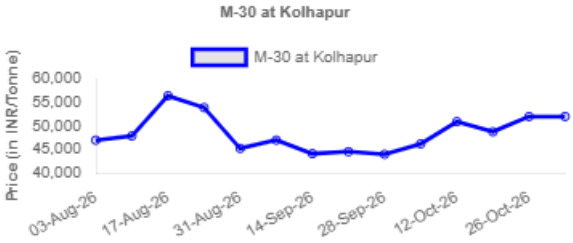

- **Sugar prices showed a upward in most of the markets. The Sugar prices in Kolhapur market were quoted at 51000 INR/Tonne.**
- **Sugar Prices Rise in Pune Ahead of Diwali Amid Higher Millgate Rates:** Retail sugar prices in Pune have increased by ₹5/kg over the past 10 days ahead of Diwali, with wholesale prices rising from ₹52/kg to ₹54/kg. Higher millgate prices, increased production costs and stronger festive demand have contributed to the rise. Sugar mills are selling sugar at around ₹50/kg, compared with ₹39/kg during the same period last year. Meanwhile, lower sugar recovery due to drought-affected sugarcane quality in Maharashtra could affect production during the ongoing crushing season. However, the state government has reported adequate stocks to meet festive demand and is monitoring the market to prevent hoarding.
- **Karnataka Sugar Mills Seek Higher Sugar MSP and Ethanol Procurement:** Sugar mill representatives in Karnataka have urged the state government to increase the minimum selling price (MSP) of sugar and raise ethanol procurement from sugar factories to improve mill profitability. They cited rising production costs and the need for better returns to meet sugarcane farmers' payment expectations. Higher ethanol procurement could support sugar mills by providing an additional revenue stream and encouraging greater diversion of sugarcane towards ethanol production. The demands come amid pressure on the sugar industry to improve financial stability and ensure timely payments to farmers.

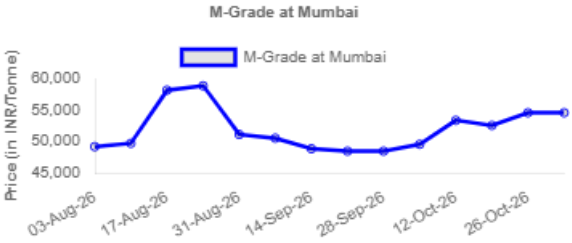

International News

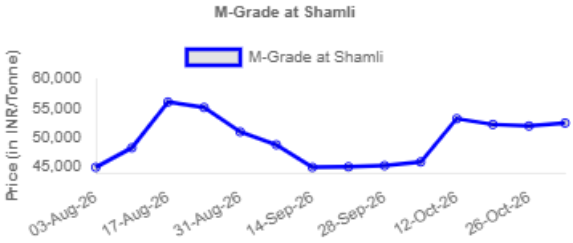

- **Sugar (ICE) Mar 2027 closed at 19.1 cents/Pound.**
- **London Sugar (LCE) Dec 2026 closed at 514.5 USD/Tonne.**
- **Egypt's Sugar Industry Byproduct Export Earnings Rise 54% in 2025:** Egypt's export earnings from sugar industry byproducts increased by 54% in 2025 to $176 million, compared with $114 million a year earlier, with shipments reaching around 889 thousand tonnes. The country accounted for approximately 20% of global exports, ranking second worldwide. Higher sugar beet processing, with deliveries to mills rising 50% to 18 million tonnes, supported greater availability of byproducts such as beet pulp and bagasse, which are widely used in animal feed. China was the largest export destination, followed by Spain and Ireland. Growing demand from Asian and European markets could support further export growth and strengthen Egypt's position in the global animal feed ingredients market.
- **Pakistan's Sindh Farmers Seek Regulated Sugarcane Prices:** The Sindh Abadgar Board in Pakistan has urged the government to regulate sugarcane crushing schedules and procurement prices to protect farmers from unfair pricing and delayed crushing by sugar mills. Uncertainty over returns has prompted some growers to shift from sugarcane to wheat, potentially affecting future sugarcane acreage and raw material availability for mills.
