Domestic News

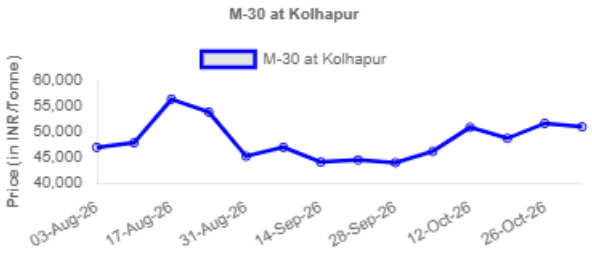

- **Sugar prices showed a upward in most of the markets. The Sugar prices in Kolhapur market were quoted at 50000 INR/Tonne.**
- **Government Directs Sugar Mills to Submit Bulk Consumer Sales Data by October 30:** The Department of Food and Public Distribution has directed all sugar mills to submit complete details of bulk consumers who purchased large quantities of sugar during FY 2025-26 by October 30, 2026. The information must include consumer names, GSTIN and total sugar quantities sold, covering both direct sales and supplies through agents or dealers. The move aims to improve transparency and strengthen monitoring of domestic sugar distribution. The department has warned that incomplete, inaccurate or missing information may be viewed seriously.
- **Goa Government Explores Revival of Sanjivani Sugar Factory:** The Goa government is working with a Maharashtra-based company to explore the revival of the closed Sanjivani Sugar Factory. Agriculture Department officials have held discussions with sugarcane farmers on plans to restart the mill. Its revival could provide a reliable market for locally grown sugarcane and support sugarcane cultivation in the state. However, the timeline for restarting operations and the arrangements for farmers are yet to be finalised.

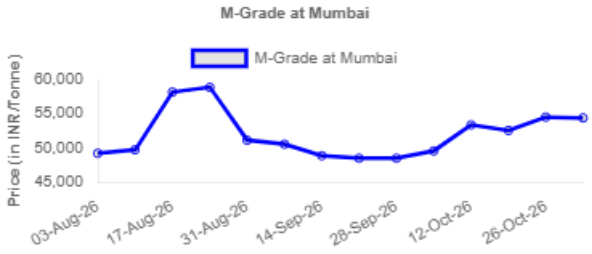

International News

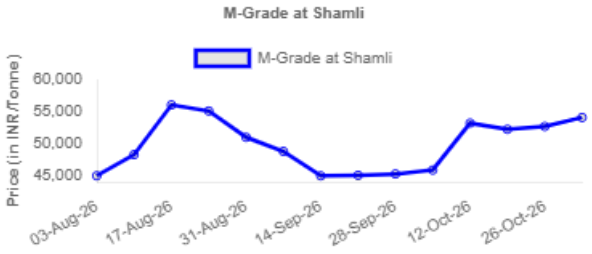

- **Sugar (ICE) Mar 2027 closed at 19.2 cents/Pound.**
- **London Sugar (LCE) Dec 2026 closed at 519.5 USD/Tonne.**
- **Brazil's Center-South Sugar Production Expected to Decline in 2026-27:** Brazil's Center-South sugar production is projected to decline in the 2026-27 season as excessive rainfall is expected to reduce sugar recovery and encourage mills to divert more sugarcane towards ethanol production. Despite higher sugarcane crushing, lower recoverable sugar content is likely to weigh on output. Meanwhile, total ethanol production, including corn-based ethanol, is expected to increase, reflecting a greater allocation of sugarcane and corn towards fuel production. The shift could limit sugar supplies from Brazil and influence global sugar market trends.
- **World Bank Proposes Liberalising Pakistan's Sugar Trade:** The World Bank has proposed removing sugar from Pakistan's Import/Export Order, 2022, to liberalise sugar trade and encourage greater private-sector participation. The proposal is part of a five-year reform programme aimed at improving investment and trade competitiveness, with proposed World Bank financing of $600 million. The reforms seek to reduce regulatory barriers and allow market forces to play a greater role in sugar and wheat trade. The programme is scheduled for consideration in January 2027.
