Weather Forecast and Warning

- **Uttar Pradesh to Remain Dry for the Next Seven Days as Temperatures Gradually Decline:** Uttar Pradesh is likely to experience dry weather across the state over the next seven days, with clear skies and continued sunshine, according to the Meteorological Department. Daytime and nighttime temperatures may decline by up to 2°C, bringing a noticeable chill during the morning and evening hours, while daytime conditions are expected to remain relatively warm. Lucknow recorded a maximum temperature of 31.9°C and a minimum of 18°C on Tuesday. Hardoi reported the lowest minimum temperature in the state at 16°C, followed by Muzaffarnagar at 16.4°C and Meerut at 16.7°C. The absence of rainfall and gradual cooling at night indicate a transition towards cooler weather across Uttar Pradesh.
- **Heavy Rainfall and Gusty Winds Likely Over Coastal Andhra Pradesh and Rayalaseema on October 21:** Heavy rainfall is likely at isolated places over Coastal Andhra Pradesh, Yanam and Rayalaseema on October 21. Scattered rainfall may continue across these regions through October 27. Thunderstorms, lightning and gusty winds are also possible, with strong surface winds expected during October 21–23. Farmers are advised to ensure proper drainage in rice, maize, groundnut and vegetable fields, support horticultural crops, secure harvested produce and postpone fertilizer application and pesticide spraying during heavy rainfall.
- **Isolated Rainfall, Thunderstorms and Gusty Winds Likely Over Telangana on October 21:** Isolated rainfall is likely over Telangana on October 21, accompanied by the possibility of thunderstorms, lightning and gusty winds. No significant rainfall activity is indicated for the remaining days in the bulletin.
- **Heavy Rainfall Likely Over South Interior Karnataka During October 22–25:** Coastal Karnataka and South Interior Karnataka are likely to receive widespread rainfall during October 22–24, with isolated to scattered rainfall possible through October 27. Heavy rainfall is likely at isolated places over South Interior Karnataka during October 22–25. Thunderstorms, lightning and gusty winds may affect several areas. Farmers should ensure proper drainage in agricultural fields and provide support to banana plants, vegetables and other horticultural crops to minimise damage from strong winds and waterlogging.
- **No Significant Weather Activity Forecast Over Uttar Pradesh During the Coming Week:** No significant weather activity is expected over Uttar Pradesh during the coming week, according to the India Meteorological Department's forecast.
- **No Significant Weather Activity Forecast Over Punjab During the Coming Week:** No significant weather activity is expected over Punjab during the coming week, according to the India Meteorological Department's forecast.
- **No Significant Weather Activity Forecast Over West Bengal During the Coming Week:** No significant weather activity is expected over West Bengal during the coming week, according to the India Meteorological Department's forecast.
