Market Update

- **Cumin prices show a upward trend in most of the markets throughout the day . The price of Unjha (Gujarat) market is quoted at 250000 INR/Tonne.**
- **Indian Cumin Market Firms as Unjha Spot Demand Remains Steady:** Indian cumin prices have edged higher, supported by steady domestic demand and limited farmer selling ahead of the new sowing season. The Unjha spot market in Gujarat remained firm, while export demand also showed some improvement. However, comfortable carry-forward stocks and expectations of higher production compared with last year may limit further gains. Market participants are closely monitoring sowing progress in Gujarat and Rajasthan for the 2027 crop.
- **India's Cumin WPI Rises in September 2026 After Declining in August:** India's Wholesale Price Index (WPI) for cumin increased to 94.8 in September 2026 from 92.0 in August, indicating a rise in wholesale price levels during the month. The index had declined from 100.1 in February to 92.0 in August before recovering in September. The latest increase suggests a month-on-month improvement in cumin prices, although the index remains below its February level.
